## PUBLIC INFORMATION

This information is being provided to the public pursuant to Chapter 692A.13(3), Code of Iowa, to protect members of the public from potential harm.

**Your community law enforcement and county sheriff's office are aware that this person is in the community.**

## HOW TO SEARCH

You may map registrants around an address by entering it below. The address should contain only letters, numbers and spaces. If the address does not locate properly and you are presented with an error message, try removing any abbreviations or other special wordings. **Do not include numbers for apartments, buildings or lots, or names of buildings or other properties.** Only the street number and name are needed. Example: '12345 Qwerty Street' or '12345 East Qwerty Ave'. Although a *Zip Code* is optional, using it can provide more precise search results.

**Some addresses can not be mapped.** If your address does not go through, try entering a nearby address on a different street. Also, addresses such as .RR2., Sunnyside Mobile Home Park., or others that do not contain necessary characteristics for mapping will not be included on maps. Registrants who are homeless or incarcerated, or whose whereabouts are unconfirmed, will also not appear on maps. **To search all registrants on this website, use the website's SEARCH REGISTRANTS option by city, county, or zip code.**
