

DIOCESE OF DAVENPORT

MOVING FORWARD IN FAITH AND HOPE

While standing on a corner near Nazareth House (now Project Renewal) in central Davenport he conceived of the idea of a Two Feet approach to social ministry. This approach incorporated both social change and acts of charity. Msgr. Mottet thought that just as we need Two Feet to walk, an effective social ministry must include work to address root causes of injustice in society as well as acts of charity to address immediate needs. The Two Feet has become a symbol in many different dioceses, and organizations throughout the world to remind us that both feet of social action are necessary.
